

**PLM** Group Services

# Anytime, Anyplace, Anywhere.

**Anytime** – 24 hours a day, seven days a week, our National Helpdesk provides a single point of contact and comprehensive property service coverage. **Anyplace** in your business – whether you need plumbing and mechanical, airconditioning, electrical or property services – **Anywhere** in Australia.

The PLM Group Services (previously PLM Property Services) new corporate structure ensures that, with a shared service centre for efficiency and economy, each of our core business divisions – PLM Electrical Services, PLM Mechanical Services and PLM Property Services maximises its professionalism and innovation. With a genuine customer focus we deliver a world-class total asset management and maintenance service.

**PLM** Electrical Services

The largest of our divisions, PLM Electrical Services provides design, installation, maintenance and remedial work across general electrical installation and engineering. This includes general lighting services and the design, installation and maintenance of general, display and energy-efficient lighting systems. Essential services and compliance management includes emergency lighting systems, appliance testing and tagging and RCD testing and installation.

**PLM** Mechanical Services

On the ball and in demand, the PLM Mechanical Services specialist teams provide an Australia-wide emergency coverage across HVAC; refrigeration; mechanical engineering and all aspects of plumbing as well as comprehensive preventative maintenance, minor works and inspections. Immediate on-demand response and reliable proactive/predictive and routine maintenance service scheduling ensure your assets are always running at their optimum.

**PLM** Property Services

The fastest growing specialist division, PLM Property Services covers all the key requirements of maintenance and refurbishment: carpentry, concreting, cabinetry and furniture repairs, painting, plastering, tiling, glazing, and asbestos removal are some of the skills we provide as well as general and grounds maintenance, building compliance audits and the peace of mind of an efficient incident response service.
